

Dec. 7. 1864

Dear Mr. May - In writing the enclosed I
think I have perceived in the Liberator a shrinking
from this on the part of the editors from the idea of
giving up the paper at this time. If it be the case
that it is to be continued & that funds are required for
its support, you will please to hand into the proper
quarters £10 of the cash now forwarded to by Alfred
in my name for that purpose. If the Lib. is given
up, keep my £10 for the Am. A. S. Society or the
support of the Standard - whichever you think best.
Why is W. L. G. so very tart with all to who differs
from him? Is he not necessarily sharp with Mr. D.
Greney - and with Daniel Webster? - I am rejoiced
to see in the Lib. this day received the letter from
the Mann family from California. We are now
anxiously looking for a letter from Richard
from whom we have not heard since lately - R. D. W.
